

PROPOSAL

Name: Game Master

Type: Pen and Paper;

Flavors: free, paid;

Google Services Used:

Google Cloud Messaging;

Google Cloud Endpoints;

Google Locations;

Google Admob;

Issues:

Bob: *"I really want an app that allows me to connect with friends and play roleplaying games!"*

Siani: *"I would like some sort of app to help me make a choice, like maybe a coin tossing app of sorts. Is that possible?"*

What it does:

1. Users create online game rooms, where players can interact and roll dice!
2. Roleplay on the go by responding to a GMs(Game Masters) scenario.
3. Separate drop down for quick decision maker.
4. Create role-playing games using a forum style approach.
5. Run your own game complete with password(optional) and style of play.
